Tips to gaining the success you want as a budding "Chic"preneur.

Faking it till you make it doesn't work—at least, not long enough to build a sustainable business. This book by a CEO and public relations expert shows how authentic leadership eliminates the need for short-cuts that sabotage success. Self-doubt and the intense pressure of facing the unknown are real problems for entrepreneurs and leaders. But there's a difference between feigning confidence and running a con game; Elizabeth Holmes and Billy McFarland thrived on faking it for a short while, but their businesses were all aspiration, no foundation, and so collapsed disastrously. This book revisits the core of leadership, defines authentic, reality-based business integrity, and shows readers how to attain and maintain it. Through the double lens of running her own PR firm in Silicon Valley and advising hundreds of other executives, award-winning CEO Sabrina Horn shows leaders how to attend to the fundamentals and gain the clarity of thought necessary to make sound business decisions. She delivers real, workable strategies and best practices with firsthand accounts of painful lessons. Horn's fake-free advice will empower leaders to disarm fear and organize risk, manage setbacks, plan for the unexpected, and create a company culture designed for long-term, sustainable growth.

Over the last 15 years, women have stepped into entrepreneurship in significantly greater numbers than men, but we're also failing at those businesses even faster than men. This book is going to change that. *Women Rocking Business* provides a revolutionary approach to building a business that honors innate feminine values. The book is full of practical "how-to's" that will help women become thriving entrepreneurs from a place of empowering others rather than powering over them, a place of collaboration rather than competition and contribution rather than greed. Sage Lavine has seen firsthand through working with thousands of emerging female entrepreneurs that when women learn about marketing and entrepreneurship through this lens, they are better positioned to implement effective strategies and create success. Sage is the CEO of Women Rocking Business, a consulting and coaching organization that has touched and inspired over 75,000 aspiring women entrepreneurs around the globe to build businesses that change the world. In this practical guidebook, she lays out a specific plan for building a business that honors work-life balance to a degree readers may not have thought possible (or practical). They will discover how, by working just 12 days a month or less, they can have a career that both supports them financially and fits into their lives, rather than having to settle for a life that fits around an overwhelming work schedule. It's a new day and the opportunity for

Build an iconic shopping experience that your customers love—and a work environment that your employees love being a part of—using this blueprint from Trader Joe's visionary founder, Joe Coulombe. Infuse your organization with a distinct personality and culture that draws customers in a way that simply competing on price cannot. Joe Coulombe founded what would become Trader Joe's in the late 1960s and helped shape it into the beloved, quirky food chain it is today. Realizing early on that he could not compete and win by playing the same game his bigger competitors were playing, he decided to build a store for educated people of somewhat modest means. He brought in unusual products from around the world and promoted them in the Fearless Flyer, providing customers with background on how they were sourced and their nutritional value. He also gave the stores a tiki theme to reinforce the exotic trader ship concept with employees wearing Hawaiian shirts. In this way, Joe laid down a blueprint for other business owners to follow to build their own unique shopping experience that customers love, and a work environment that employees love being a part of. In *Becoming Trader Joe*, Joe shares the lessons he learned by challenging the status quo and rethinking the way a business operates. He shows readers of all types: How moving from a pure analytical approach to a more creative, problem-solving approach can drive innovation. How finding an affluent niche of passionate customers can be a better strategy than competing on price and volume. How questioning all aspects of the way you do business leads to powerful results. How to build a business around your values and identity.
