Professional modelling is one of the world's most competitive, challenging and changeable industries, and it can be a daunting business for any new or aspiring model to face without guidance. The Model's Guide is a fully comprehensive handbook, written by a professional model with more than ten years' industry experience, which tells everything you need to know in order to enter and succeed in the world of modelling. The book is full of insider tips, stories and anecdotes from the lives of working models, photographers and industry professionals. There is comprehensive advice on how to find an agency, how to get work, and how to promote yourself as a freelance model. The book outlines the various different types of modelling, techniques on how to walk, dress, pose and act on shoots, how to prepare for castings and shoots, general wellbeing and beauty advice, and invaluable advice on how to avoid modelling scams. The Model's Guide captures the nature of the modelling industry and the life of an average model in a way that has never been done before.

In Germany, they call it Miniatur Wunderland. This miniature wonderland is a model railway attraction in Hamburg, Germany, and the largest of its kind in the world. In March 2016 the railway consisted of 50,525 ft of track in HO scale. The exhibit includes 930 trains made up of over 14,450 carriages, 335,000 lights, 228,000 trees, and 215,000 human figurines. There are eleven sections: 1) Harz, the highest mountain range in Northern Germany 2) Knuffingen, a fictitious city with amazing model cars 3) The Alps and Austria 4) Hamburg, the second largest city in Germany 5) America, especially the United States 6) Denmark 7) Sweden and its snow covered landscape 8) Norway with ships sailing in real water 9) Switzerland 10) Bavaria and the Bavarian lifestyle 11) Knuffingen Airport, a replicate of the Hamburg Airport Finally, it's hard to describe this amazing miniature world with words. This was the reason for this picture book. Please, discover and look closely to this miniature world with more than 700 photos.

Art Bechstein steps out of the library into the summer of his graduation year. Not yet ready for respectability, he falls in with the exotic, charming Arthur Lecomte, and ricochets between a homosexual relationship and an intense affair with a strange and beautiful girl called Phlox. Before long, the world of his new friends and the underworld of his father must collide, with consequences that Art cannot control.

Life in lower class as offspring of a notorious thief was simple for the Quartar daughters until accidental mishaps with the other classes of society turn their dirt poor lives around for worse and better. Eight young women are taken from the slums into the high class world they never understood only at first to find betrayal, suffering, scandal, revenge and corruption. Then, before they know it they are wrapped in the grandest scandal their country of Galli has ever seen. The kingdom of Cretaine is trying to overthrow the corrupted kingdom of Galli. The Quartar family must betray their world in order to save Galli from a brutal civil war.

There's a nostalgia associated with model trains and railroading -- even if it's unspoken. Railroads take us back to an earlier era. A more basic time. When spending a week or more on a train was seen as a luxury -- an event in itself -- not at as merely a mode of transportation. You've probably already scouted some model railroad shows. You've no doubt recognized the camaraderie and the passion these folks have. And yes, you're interested in becoming a part of that. "The Wonderful World of Model Trains" will help you do just that! It's a comprehensive guide to model railroading written for someone who is new to this hobby, starting with some basic "train knowledge" & terminologies, and continuing on to the more detailed aspects of the hobby. And yes, this hobby can indeed get quite detailed. And that tends to be intimidating to some people. The beauty of this hobby is that you can get involved at just the level you care too. You'll discover that every model railroader is in it for the love of the trains and the history. The vast majority of us are not out to make a fast buck from our interests. Here's some of the things you'll learn in "The Wonderful World of Model Trains": - How to create stunning terrain in your scenery with

these 3 simple techniques... - Different scales, gauges, standards in the world of model railroading and what they all mean... - 2 simple keys (that are right in front of your eyes) to build your own benchwork... - WARNING: 3 things you should never do when it comes to wiring... - A pennies on the dollar approach to finding model train parts... - How to avoid derailing problems... - 3 proven steps to running multiple trains on one track... - 6 time tested and proven strategies for laying out train tracks... - When to add onto your set with locomotives and rolling stock... - 7 everyday but often overlooked tips and tricks for building the best layouts for your scenery... - How to do general maintenance on your model trains and tracks... - And much more...

The Pulitzer Prize-winning author's "astonishing" debut novel, about a son's struggle to find his own identity and integrity (The New York Times). Michael Chabon, author of *The Amazing Adventures of Kavalier & Clay*, *Moonglow*, and *The Yiddish Policeman's Union*, is one of the most acclaimed talents in contemporary fiction. *The Mysteries of Pittsburgh*, published when Chabon was just twenty-five, is the beautifully crafted debut that propelled him into the literary stratosphere. Art Bechstein may be too young to know what he wants to do with his life, but he knows what he doesn't want: the life of his father, a man who laundered money for the mob. He spends the summer after graduation finding his own way, experimenting with a group of brilliant and seductive new friends: erudite Arthur Lecomte, who opens up new horizons for Art; mercurial Phlox, who confounds him at every turn; and Cleveland, a poetry-reciting biker who pulls him inevitably back into his father's mobbed-up world. A New York Times bestseller, *The Mysteries of Pittsburgh* was called "astonishing" by Alice McDermott, and heralded the arrival of one of our era's great voices. This ebook features a biography of the author.

A story collection from the Pulitzer Prize-winning author of *The Amazing Adventures of Kavalier & Clay*, "one of his generation's most eloquent new voices" (The New York Times). With his first novel, *The Mysteries of Pittsburgh*, Michael Chabon announced his presence as a literary wunderkind of style and substance. *A Model World and Other Stories* only burnished his reputation as a distinctive prose stylist. In eleven elegant tales—some of them linked—by the New York Times–bestselling author of *Telegraph Avenue* and *The Amazing Adventures of Kavalier & Clay*, Chabon's singular characters hold tight to private dreams even as their closest relationships crumble. Five stories follow an anxious adolescent from the beach vacation where he learns of his parents' divorce to the confused days of a woefully misguided crush. Others find ex-lovers tormenting each other at an oceanside café, a washed-up professional baseball player attending a teammate's funeral, and a Pittsburgh disc jockey still pining for a woman who married him to get her American citizenship. "Chabon moves across powerful emotional ground with certainty and delicacy," raves the Chicago Tribune. "There are heartbreaking moments in these stories, but they are rendered so precisely, through incidents that capture the subtlest of feelings, that the reader can only smile at Chabon's skill." This ebook features a biography of the author.

She emerged as innocent as any newborn. The party of starbursts and sparkles came to a standstill. In awe, millions of heavenly beings paused. Shine Star, Princess of the Universe, was the most precious and rare of all creations. As an expression of perfect happiness, thus was the king's daughter born. A magical love story unfolds in Vikrant Malhotra's wondrous debut, *The Stories of Goom'pa: Book One*. Meet Goom'pa. He is a Poofy, a small furry creature who resides on Earth in a place called Palidon, on the edge of the Miron National Forest. His world is a quiet one-until he spies Shine Star, a glorious star in the sky and the daughter of Prime Ray, the king of the universe. Enchanted by her elegance, Goom'pa knows he is willing to do anything to win the love of this celestial beauty. As the two meet and fall in love, Shine Star's father worries about his only daughter. Exploiting that concern is the Star Lord, Rath, who wants nothing more than to wrestle control of the universe away from Prime Ray. Will Goom'pa and Shine Star find a way to be together? Or will Rath's evil plan doom them all?

The essential guide to the theory and application of the Social Change Model Leadership for a Better World provides an approachable introduction to the Social Change Model of Leadership Development (SCM), giving students a real-world context through which to explore the seven C's of leadership for social change as well as a approaches to socially responsible leadership. From individual, group, and community values through the mechanisms of societal change itself, this book provides fundamental coverage of this increasingly vital topic. Action items, reflection, and discussion questions throughout encourage students to think about how these concepts apply in their own lives. The Facilitator's Guide includes a wealth of activities, assignments, discussions, and supplementary resources to enrich the learning experience whether in class or in the co-curriculum. This new second edition includes student self-assessment rubrics for each element of the model and new discussion on the critical roles of leadership self-efficacy, social perspective, and social justice perspectives. Content is enriched with research on how this approach to leadership is developed, and two new chapters situate the model in a broader understanding of leadership and in applications of the model. The Social Change Model is the most widely-used leadership model for college students, and has shaped college leadership curricula at schools throughout the U.S. and other countries including a translation in Chinese. This book provides a comprehensive exploration of the model, with a practical, relevant approach to real-world issues. Explore the many facets of social change and leadership Navigate group dynamics surrounding controversy, collaboration, and purpose Discover the meaning of citizenship and your commitment to the greater good Become an agent of change through one of the many routes to a common goal The SCM is backed by 15 years of research, and continues to be informed by ongoing investigation into the interventions and environments that create positive leadership development outcomes. Leadership for a Better World provides a thorough, well-rounded tour of the Social Change Model, with guidance on application to real-world issues. Please note that *The Social Change Model: Facilitating Leadership Development* (978-1-119-24243-7) is intended to be used as a Facilitator's Guide to Leadership for a Better World, 2nd Edition in seminars, workshops, and college classrooms. You'll find that, while each book can be used on its own, the content in both is also designed for use together. A link to the home page of The Social Change Model can be found below under Related Titles.

During the last two centuries, the way economic science is done has changed radically: it has become a social science based on mathematical models in place of words. This book describes and analyses that change - both historically and philosophically - using a series of case studies to illuminate the nature and the implications of these changes. It is not a technical book; it is written for the intelligent person who wants to understand how economics works from the inside out. This book will be of interest to economists and science studies scholars (historians, sociologists and philosophers of science). But it also aims at a wider readership in the public intellectual sphere, building on the current interest in all things economic and on the recent failure of the so-called economic model, which has shaped our beliefs and the world we live in.

Modern-day pirates took more than Jori Virtanen's friends; they stole his face. Not only does the twenty-four-year-old former model have to confront months of reconstructive surgery, he discovers his previous life was as superficial as his looks. Up-and-coming talk show host Olivia Howard wants an interview. She, like the rest of the press, expects a hero, but Jori knows the truth. His beauty masks a beast. In seclusion and evading the press, Jori struggles to make a new life as an artist. But he can't hide from himself; more than his face is damaged. How can Jori possibly make amends for all that he's broken? When Olivia finally tracks him down, he must decide if he can trust her. Could this unlikely woman be a key to freeing his heart and healing the beast?

Here you'll find one key to the development of a successful information system: Clearly capture and communicate both the abstract and concrete building blocks of data that describe your organization. In 1995, David Hay published *Data Model Patterns: Conventions of Thought* - the groundbreaking book on how to use standard data models to describe the standard business situations. *Enterprise Model Patterns: Describing the World* builds on the concepts presented there, adds 15 years of practical experience, and

presents a more comprehensive view. You will learn how to apply both the abstract and concrete elements of your enterprise's architectural data model through four levels of abstraction: Level 0: An abstract template that underlies the Level 1 model that follows, plus two meta models: • Information Resources. In addition to books, articles, and e-mail notes, it also includes photographs, videos, and sound recordings. • Accounting. Accounting is remarkable because it is itself a modeling language. It takes a very different approach than data modelers in that instead of using entities and entity classes that represent things in the world, it is concerned with accounts that represent bits of value to the organization. Level 1: An enterprise model that is generic enough to apply to any company or government agency, but concrete enough to be readily understood by all. It describes: • People and Organization. Who is involved with the business? The people involved are not only the employees within the organization, but customers, agents, and others with whom the organization comes in contact. Organizations of interest include the enterprise itself and its own internal departments, as well as customers, competitors, government agencies, and the like. • Geographic Locations. Where is business conducted? A geographic location may be either a geographic area (defined as any bounded area on the Earth), a geographic point (used to identify a particular location), or, if you are an oil company for example, a geographic solid (such as an oil reserve). • Assets. What tangible items are used to carry out the business? These are any physical things that are manipulated, sometimes as products, but also as the means to producing products and services. • Activities. How is the business carried out? This model not only covers services offered, but also projects and any other kinds of activities. In addition, the model describes the events that cause activities to happen. • Time. All data is positioned in time, but some more than others. Level 2: A more detailed model describing specific functional areas: • Facilities • Human Resources • Communications and Marketing • Contracts • Manufacturing • The Laboratory Level 3: Examples of the details a model can have to address what is truly unique in a particular industry. Here you see how to address the unique bits in areas as diverse as: • Criminal Justice. The model presented here is based on the "Global Justice XML Data Model" (GJXDM). • Microbiology • Banking. The model presented here is the result of working for four different banks and then adding some thought to come up with something different from what is currently in any of them. • Highways. The model here is derived from a project in a Canadian Provincial Highway Department, and addresses the question "what is a road?"

Foreword by Tim Gunn. In "Make the World Your Runway", Liris Crosse, plus-size supermodel, actress, and pioneer in the fashion industry, shares her top model secrets for every day confidence and success. It is the inspirational roadmap to help you to build your self-belief, so you can create the joy and success in life that you've always wanted. Step up. Own it. We're waiting for your brilliance!"

A Collection of Matt Shaw's heartbreaking dramas Matt Shaw does not just write horror. In fact, when asked what his favourite books are, he often names the tales collected within this set. Stories of heartbreak, loss and grief - all with an element of hope... A hope we often forget when dealing with grief. Contained within this collection Heaven's Calling BOY: Built to Love The Missing Years of Thomas Pritchard (unpublished short story) Alone Heaven's Calling Josh and Holly could face anything thrown at them all the time they had each other. Their love would conquer anything and the world was their oyster. But when a tragic accident tears Josh away from Holly she realises that, without her husband, she cannot cope and her world begins to crumble; her loss being more than she can handle. Until, that is, she receives a phone call. Her late husband. The same time every day; he doesn't appear to know what has happened to him and Holly can't bring herself to tell him. She isn't even sure if it really is him calling or whether it's all in her tormented mind. Especially seeing as the calls only happen when she is alone. Is it all in her head, has she gone mad, or is heaven really calling? Boy: Built to Love No parent should have to bury their own child and yet that was exactly what they had to do. Stillborn; a young boy never to open his eyes to take in the world around him. And now Lucy and Jack's marriage was on the verge of crumbling under the strain of the grief they struggled to cope with. A grief made worse when the doctors tell them they'll never be able to have a child of their own due to complications from the last pregnancy. But what if it didn't have to be that way? What if there was a way of using science and technology to create a son they could love? What if Jack was able to use Artificial Intelligence to create A Boy: Built to Love? Is the answer to their problems to be found within the world of science-fiction or are they setting themselves up for yet more grief and sadness? The Missing Years of Thomas Pritchard August 3rd. 6:03am. The tranquil summer's morning was shattered by the desperate screams of Thomas' mother echoing down the near deserted suburban street. The few people milling about outside getting ready for their daily business had said they couldn't make out what the cries were about when they were interviewed. Not initially. Not until Anne, a pretty woman in her early thirties with shoulder length blonde hair, spilled out onto the street wearing nothing more than her dressing gown and slippers anxiously calling out for her five year old son, Thomas, to come out from

wherever he was hiding. Eye witnesses reported Anne was closely followed by her husband Bill - a professional, clean-shaven man in his late thirties with dark, short hair - half dressed for work in his suit trousers and unbuttoned white shirt, and that he too looked just as frantic as the mother did. The year was 2003; the year Thomas disappeared from his home without a trace. * * * * August 3rd. 6:03am. A young, fragile looking hand knocked confidently on the white PVC of the front door to number twenty-two. The hand belonged to a smartly dressed, skinny fourteen year old, fresh-faced boy. Whilst waiting for an answer to his knocking he slid a brown leather satchel off his shoulder down onto the floor as though the weight was too much for him to bear any more. He went to knock again but stopped himself when he heard the sound of footsteps from the other side of the door as the freshly woken homeowner came to answer his initial knocking. There was the slightest of pauses as keys were twisted in locks before the door opened as much as the strong, gold, security chain would permit it to. "Can I help you?" asked the homeowner, a frail looking woman in her late sixties. "Where's my mum?" asked the boy. The year was 2012; the year Thomas came home.

Daniel Nash struggles to reconcile his feelings of betrayal with his desire to understand his life. His hopes of uncovering the secrets revealed in his father's journals are quickly dashed, and he works with a private investigator to discover the truth. Worry about his wife, Sarah, combines with his efforts to cope with his childhood trauma, an unexpected death, and the recent revelations. His obsession with the past threatens to destroy his stable life. Meanwhile, Sarah and her father, Tristan, continue to combat the lingering discord that developed between them years before but refuse to take their main focus from Daniel. As he reviews his biological father's efforts to be a good man, Daniel searches for a way to comprehend shocking disclosures. He questions his own goodness as he fights not to emotionally withdraw from those around him, especially the two people he knows will always love him, Sarah and Tristan.

Scott, New York Times Book Review, cover review Following on the heels of his New York Times bestselling novel Telegraph Avenue, Pulitzer Prize-winning author Michael Chabon delivers another literary masterpiece: a novel of truth and lies, family legends, and existential adventure—and the forces that work to destroy us. In 1989, fresh from the publication of his first novel, The Mysteries of Pittsburgh, Michael Chabon traveled to his mother's home in Oakland, California, to visit his terminally ill grandfather. Tongue loosened by powerful painkillers, memory stirred by the imminence of death, Chabon's grandfather shared recollections and told stories the younger man had never heard before, uncovering bits and pieces of a history long buried and forgotten. That dreamlike week of revelations forms the basis for the novel Moonglow, the latest feat of legerdemain from Pulitzer Prize-winning author Michael Chabon. Moonglow unfolds as the deathbed confession of a man the narrator refers to only as "my grandfather." It is a tale of madness, of war and adventure, of sex and marriage and desire, of existential doubt and model rocketry, of the shining aspirations and demonic underpinnings of American technological accomplishment at midcentury, and, above all, of the destructive impact—and the creative power—of keeping secrets and telling lies. It is a portrait of the difficult but passionate love between the narrator's grandfather and his grandmother, an enigmatic woman broken by her experience growing up in war-torn France. It is also a tour de force of speculative autobiography in which Chabon devises and reveals a secret history of his own imagination. From the Jewish slums of prewar South Philadelphia to the invasion of Germany, from a Florida retirement village to the penal utopia of New York's Wallkill prison, from the heyday of the space program to the twilight of the "American Century," the novel revisits an entire era through a single life and collapses a lifetime into a single week. A lie that tells the truth, a work of fictional nonfiction, an autobiography wrapped in a novel disguised as a memoir, Moonglow is Chabon at his most moving and inventive.

The world is infected and humanity is reduced to creatures of vicious insanity. Doctor Thorn's rescue by a group of young survivors is just the beginning of their nightmarish journey to survive. In this apocalyptic landscape, humankind has one final hope that rests on the strength and determination of 10 young men and women.

In April 2011, Anthony Byrt was living in Berlin and building a career as a critic, writing about the world of contemporary art for magazines like frieze and Artforum International. Then one day his world turned upside down and Byrt, his wife and their new-born son suddenly found themselves booked on a one-way trip home to New Zealand. This Model World is a portrait of what Byrt found when he came back. Built around hundreds of hours spent in galleries, artists' studios and on the road from Brisbane to Detroit to Venice, this is a deeply personal journey into the contemporary New Zealand art world and the global world it inhabits. It's a book about major figures like Yvonne Todd, Shane Cotton, Billy Apple, Peter Robinson, Judy Millar and Simon Denny, and emerging artists such as Luke Willis Thompson, Shannon Te Ao and Ruth Buchanan. It's about severed heads and failed cities; about bright young stars and old men with a final point to prove; about looking for God and finding Edward Snowden; and about what it means to investigate the boundary where our bodies hit the world. This Model World – a riveting first-person account of one author's travels to the edge of contemporary art.

In the Kingdom of Aran, in the Caucasus Mountains, in 950 A.D., two adventurers wander the region, plying their trade as swords for hire, until they become embroiled in a bloody coup in the medieval Jewish empire of the Khazars as bodyguards for a fugitive prince with a mysterious secret. Reprint. 75,000 first printing.

Professional modelling isn't about body measurements and looks. It's about your ability to sell products. Most models aren't being hired for their beauty. They are being hired for their ability to promote, market, and sell products. This requires a very specific set of skills that can be learned. It requires practice and actions, as well as gaining an understanding of how the industry works. Fitting into classical beauty standards is far less important than your ability to help brands achieve their objectives. This complete actionable guide gives every little detail of the global modelling industry, from how to get signed with a modelling agency to how to develop an international career and build the personality required for success in the field. Learn crucial knowledge and tactics to avoid career-ending, money-wasting blunders: Why modelling schools are a waste of money What agencies really look for and how to get started if you don't fit the classical look How to prepare an application so good they can't ignore you What to do if you've been rejected? Or haven't heard back? How to recognise a legit modelling agency Your Polaroids are so important -- learn why and how to make them well Crucial financial insight to make more money with less stress: Who pays for what and how much you can make for each type of job What is a "direct booking" vs. "on stay" modelling? How to maximise your jobs using Instagram How to build a trustworthy relationship with your agent How to manage your income and personal finances for a safe and stable career The Models' Guide is the only existing book on modelling that contains a detailed overview of the 27 countries and their modelling culture. Paris, Milan, London, New York, Los Angeles, Tokyo, Guangzhou, Barcelona, Hamburg, Athens, etc.: learn why some markets would work better for you than others, and how you can get representation in any of them. Divided into 3 chapters, "Becoming a model", "Working as a model" and "Succeeding as a model", this book will be useful to people who are new to modelling as well as the ones who are already signed and want to get more jobs and exposure. People who consider to become agents will also gain a clear understanding of how things work. Why am I the right person to talk about modelling? I am a French/Russian agent from Paris with 10 years of experience of working with all the top modelling agencies in the world and many top clients. My responsibilities include searching for new models, building their portfolios, getting them signed with international agencies, booking jobs, and managing their global careers. All while being their friend and, sometimes, therapist. I have worked with agencies such as IMG, Ford, Elite, Women, Viva, DNA, Supreme, The Lions, Premier, Storm, Monster, Oui Management, Tokyo Rebels, and I have booked models for See by Chloé, Zara, Pull&Bear, Sephora, Vogue Russia, Vogue Ukraine, Vogue Portugal, Bershka, Marc'o Polo, Tally Weijl, Only, The Kooples, to name just a few. The modelling business is surrounded by myths and assumptions, but in reality it is a set of pretty straightforward processes that, once understood, can be easily used to your advantage. You can learn them all in this book!

What has gone wrong with economics? Economists now routinely devise highly sophisticated abstract models that score top marks for theoretical rigour but are clearly divorced from observable activities in the current economy. This creates an 'uneconomic economics', where models explain relationships in blackboard rather than real-life markets. A NEW YORK TIMES BESTSELLER. Moonglow unfolds as a deathbed confession. An old man, his tongue loosened by powerful painkillers, his memory stirred by the imminence of death, tells stories to his grandson, uncovering bits and pieces of a history long buried. Why did he try to strangle a former business partner with a telephone cord? What was he thinking when he and a buddy set explosives on a bridge in Washington, D.C.' What did he feel while he hunted down Wernher von Braun in Germany? And what did he see in the young girl he met in Baltimore after returning home from the war? GENRE: CONTEMPORARY ROMANCE Book 1: Falling for the Billionaire Tiffany has left home with her best friend, Jackie, to pursue their dreams of becoming a model. The only thing they want in life is to make it in the competitive world of fashion. Yet Tiffany holds a secret close to her sleeve that may ruin her chances at ever making it. At a fashion party, her secret is put to the test when she meets Liam Cunningham. Having attended high school with him, he's the only one who could tell everyone her secret and ruin her shot at modeling. Things get complicated when Tiffany, instead of running from Liam, ends up getting closer to him. It grows even more complicated when she discovers that Liam is a billionaire businessman with an international company. As Tiffany attempts to navigate the modeling world, her new waitressing job and her feelings for Liam, she discovers that not everything is as it seems. When Liam's jealous girlfriend sets her sights on Tiffany, she finds she must hold in for the ride of her life. Will Tiffany be able to work through the perils of loving a billionaire and sort out her feelings? Or will Liam's girlfriend bring it all crashing to the ground? Book 2: Taking the Risk Things get complicated when Tiffany, a waitress and aspiring model, falls for Liam, a billionaire businessman. When Tiffany and Liam get into a fight, she vows him off forever but discovers that making promises to herself in regards to him are a lot harder to keep than she thought. Can the two of them make it work even though they are from different worlds or does Tiffany have her head in the clouds? After a tender moment with Liam at a charity event leads to an invite to his birthday party, Tiffany finds herself face to face with Liam's billions. Even though it overwhelms her, Tiffany knows she must make a choice to either be with Liam or give up her feelings on him. After deciding that she will put up with whatever she needs to in order to be happy with Liam, Tiffany is shortly put to the test. Liam's ex-girlfriend still has her sights on Tiffany and will do anything she can to get Liam back. But when Tiffany is betrayed by someone whom she thought was her closest confidant, will she be able to bounce back? Is being with a billionaire worth all of the hassle after all? Book 3: Making It

WorkWith Tiffany's secret out and in the open, she finds her chances at being a model quickly fading away. She goes to Liam for comfort but only finds more strife there. Liam's now ex-girlfriend is out for blood and will ruin his company if it means she doesn't get to have him. Torn between two worlds, Tiffany tries to tell herself that Liam will weather any storm that comes her way. But when it becomes clear that Liam wants the best of both worlds as well, Tiffany finds herself on her own, trying to make her life on her own terms. As she struggles to work hard and break into the modeling industry even with her secret out in the open, Tiffany finds it isn't that easy to get over a billionaire lover. She wants nothing more than to be back with Liam and head off into the sunset together. Yet Tiffany knows she must work on her personal growth first. Tiffany isn't sure if things will ever work out the way she has planned them. After a string of bad luck, will she ever get her happy ending? Or will Tiffany end up alone, pining for Liam for the rest of her life? This book offers many helpful techniques for creating German armored vehicles from the World War II era. Covers numerous aspects of superdetailing models: weathering, airbrushing, creating figures and dioramas, and much more! By Carl McLaughlin.
