Crosswords get the Hollywood treatment in this mystery featuring PI Rosco Polycrates and master puzzle solver Belle Graham Jamaica Nevisson—or Cassandra Lovett, as she's known to the adoring fans of her daytime soap—has vanished without a trace. She and her pal Genie Pepper went pleasure yachting off Nantucket, only to end up lost at sea. So far, only the charred hull of the boat has turned up. Called in by Pepper's husband, Massachusetts detective Rosco Polycrates and crossword editor Belle Graham uncover a list of potential evildoers that reads like a who's who of Hollywood vipers, including paparazzi stalker Reggie Flack, Jamaica's longtime nemesis. But when Belle starts receiving cryptic crosswords, she believes the women are alive and in grave danger. Now she's up against the clock as she races to unravel the messages before someone completes an across-the-board coup. Because with two down, that leaves only one more to go. This ebook includes six crossword puzzles that can be downloaded as PDFs, with answers in the back of the book. Two Down is the 2nd book in the Crossword Mysteries, but you may enjoy reading the series in any order.

Food is at the center of national debates about how Americans live and the future of the planet. Not everyone agrees about how to reform our relationship to food, but one suggestion rises above the din: We need to get back in the kitchen. Amid concerns about rising rates of obesity and diabetes, unpronounceable ingredients, and the environmental footprint of industrial agriculture, food reformers implore parents to slow down, cook from scratch, and gather around the dinner table. Making food a priority, they argue, will lead to happier and healthier families. But is it really that simple? In this riveting and beautifully-written book, Sarah Bowen, Joslyn Brenton, and Sinikka Elliott take us into the kitchens of nine women to tell the complicated story of what it takes to feed a family today. All of these mothers love their children and want them to eat well. But their kitchens are not equal. From cockroach infestations and stretched budgets to picky eaters and conflicting nutrition advice, Pressure Cooker exposes how modern families struggle to confront high expectations and deep-seated inequalities around getting food on the table. Based on extensive interviews and field research in the homes and kitchens of a diverse group of American families, Pressure Cooker challenges the logic of the most popular foodie mantras of our time, showing how they miss the mark and up the ante for parents and children. Romantic images of family meals are inviting, but they create a fiction that does little to fix the problems in the food system. The unforgettable stories in this book evocatively illustrate how class inequality, racism, sexism, and xenophobia converge at the dinner table. If we want a food system that is fair, equitable, and nourishing, we must look outside the kitchen for answers.
