OPERATION STORMFRONT: FROM WEATHERMAN TO WALL STREET is a blending of fact and fiction. Evelyn "Eve" Black is an undercover FBI Special Agent, but she's not a very good one. She often breaks cover, loses her temper, and kills a few too many people. She has an opportunity to go undercover as a terrorism researcher/author to infiltrate American terrorist cells, weapons dealers, and to use her position in the FBI to take revenge on a few people, but her inability to stay undercover causes more roadblocks than she can handle alone. It's not really her fault, in order to succeed she must become friendly, flirty and fun, all while wanting to pull out her gun and shoot them. An ex-lover called her a broken, cold-hearted sociopath, and while there may be a bit of truth to that statement, Eve's only real fault is that she cares too much and is not afraid to take action. Join Eve as she plots, plans, and manipulates others to do her bidding. Not with a smile on her face, but with a Glock and an imagination. She teams up with her new friends, a beautiful Israeli weapons trainer and a seedy little arms dealer to execute a few unsanctioned side jobs. Eve is not a hero or villain, she is an ordinary human, dealing with everyday problems, and prefers to hide in the shadows, so maybe she is a bit too emotional at times, but aren't we all?

A Spectacular Enhancement to the Skill System Mythic Skills introduces a system of skill exploits that take the basic tasks your skills allow you to perform and dials them up to amazing levels. In addition, every skill in the Pathfinder Roleplaying Game Core Rulebook also gets brand-new skill exploits, as well as greater exploits that only the most skilled masters would even attempt. This book contains rules for using these enhanced skills with mythic characters but also provides an alternative system for use in non-mythic Pathfinder campaigns! This system allows your characters to focus on their skills as a key part of their character construction and to invest more of their character's abilities in their character itself, rather than the character's gear or magical tools. You can use these rules generally with mythic characters, allowing them to attempt all manner of skill-based exploits, or you can limit the ability to pull off these amazing skill stunts to those mythic characters that have really invested in making their skills a key part of their character's identity. The mythic rules offer an opportunity to magnify what makes a character special, and the skills they choose to hone as part of their background narrative and throughout the course of the campaign should be just as important in defining them as their marvelous magic and fabulous feats. With Mythic Skills in your hands, your skills will be just as spectacular!"

unknown extremist has secured enough of the rare earth element promethium to create a laser with the power to shoot down planes from the ground. The problem swiftly becomes a global one as four more planes crash in the Arabia Desert. Details, intuition and courage lead Storm to Monaco, Panama City and Egypt as he meets beautiful women, rides angry camels and rescues innocent victims in his valiant effort to track down the maniacal mind behind the terrorism.
