In this time of quarantine and global uncertainty, it can be difficult to deal with the increased stress and anxiety. Using ancient self-care techniques rediscovered by Herbert Benson, M.D., a pioneer in mind/body medicine for health and wellness, you can relieve your stress, anxiety, and depression at home with just ten minutes a day. Herbert Benson, M.D., first wrote about a simple, effective mind/body approach to lowering blood pressure in *The Relaxation Response*. When Dr. Benson introduced this approach to relieving stress over forty years ago, his book became an instant national bestseller, which has sold over six million copies. Since that time, millions of people have learned the secret—without high-priced lectures or prescription medicines. *The Relaxation Response* has become the classic reference recommended by most health care professionals and authorities to treat the harmful effects of stress, anxiety, depression, and high blood pressure. Rediscovered by Dr. Benson and his colleagues in the laboratories of Harvard Medical School and its teaching hospitals, this revitalizing, therapeutic tack is now routinely recommended to treat patients suffering from stress and anxiety, including heart conditions, high blood pressure, chronic pain, insomnia, and many other physical and psychological ailments. It requires only minutes to learn, and just ten minutes of practice a day.

Pir Vilayat is the head of one of the mystical movements in the West: the Sufi Order International. Sufism began as the mystical wing of Islam (similar to the role of Kabbalah in Judaism). This work is not just for Sufis, however, it is for anyone seeking to deepen their spirituality. In it, readers will learn the key to transformation - moving beyond their own personal point of view to something larger. The author calls this shift *Thinking Like the Universe*.

What is the soul, and how do we come to know it? What is its journey in life, and what stages and obstacles are encountered along the way? These questions are explored here in detail according to the Diamond Approach, a spiritual path that combines systematic inquiry into personal experience, the practice of traditional spiritual methods, and the application of modern psychological research. *The Inner Journey Home* is the centerpiece of the Diamond Approach literature, providing a complete overview of the teaching with references to the author's other books for more details on certain topics.

In March 1997, thirty-nine people in Rancho Santa Fe, California, ritually terminated their lives. To outsiders, it was a mass suicide. To insiders, it was a graduation. This act was the culmination of over two decades of spiritual and social development for the members of Heaven's Gate, a religious group focused on transcending humanity and the Earth, and seeking salvation in the literal heavens on board a UFO. In this fascinating overview, Benjamin Zeller not only explores the question of why the members of Heaven's Gate committed ritual suicides, but interrogates the origin and evolution of the religion, its appeal, and its practices. By tracking the development of the history, social structure, and worldview of Heaven's Gate, Zeller draws out the ways in which the movement was both a reflection and a microcosm of larger American culture. The group emerged out of engagement with Evangelical Christianity, the New Age movement, science fiction and UFOs, and conspiracy theories, and it evolved in response to the religious quests of baby boomers, new religions of the counterculture, and the narcissistic pessimism of the 1990s. Thus, Heaven's Gate not only reflects the context of its environment, but also reveals how those forces interacted in the form of a single religious body. In the only book-length study of Heaven's Gate, Zeller traces the roots of the movement, examines its beliefs and practices, and tells the captivating story of the people of Heaven's Gate.

The Concise Yoga Vasistha a clear, provocative summary of one of the leading texts of Hinduism. Swami Venkatesananda continues the long tradition of elaborating on and clarifying the teachings of the sage Vasistha. It captures the verve of the original text while eliminating needless repetition. For the specialist, this book makes available a handy guide to the original Sanskrit without sacrificing philosophical depth. To the comparative religionist, it provides an occasion for understanding how Hinduism has been able to accommodate seemingly opposite schools of thought without giving way to the platitudes which mar many syncretic movements.

Introduction to Tantra Shastra by John Woodroffe. Originally the extended introduction to a translation of the Mahanirvana Tantra by "Arthur Avalon" (a collective pseudonym for Woodroffe and an unnamed collaborator), this is a sufficiently general treatment to repay reading apart from the work to which it was originally attached. While there are a few caveats, Woodroffe was the first Western writer to treat seriously and sympathetically of the Sakta Tantrik cults and their scriptures.

Facsimile of 1935 Edition. This volume contains the author's second group of experiences with Saint Germain. These experiences were the result of his applying the knowledge he had previously learned, as described in Unveiled Mysteries. "I LEFT you, my reader, at the end of Unveiled Mysteries, with the Great Ascended Master Lanto sending forth His Blessing to America and mankind from the Retreat in the Royal Teton. In this book I shall describe another group of important and wonderful experiences which I was privileged to have during those months of association with our Beloved Ascended Master Saint Germain." Herein the author continues his conversation with St. Germain, an Ascended Master, who is able to manipulate the fabric of reality. In Unveiled Mysteries the author, Guy Ballard, using the pen name Godfré Ray King, describes a series of astral trips in time and space with St. Germain. They travelled to lost civilizations in South America and the Sahara, as well as well-stocked bunkers of the ancients in the Grand Tetons, Yellowstone, and Mount Shasta. The author and St. Germain revisit past lives as citizens of Atlantis and Mu, and they turn out to be relatives. A final chapter mentions encounters with entities from Venus.

Miracles Through Pranic Healing -- all you need is a willingness to help yourself or your loved ones and to follow the step-by-step instructions. The results will follow. Within a week or two simple ailments can be healed . . . difficult ailments may take longer. This is the basic text used in Pranic Healing courses all over the U.S. While many Americans only work with seven basic chakras, in this process Master Choa also uses the minor chakras in the hands, feet, fingers, throat and neck. His methods for activating healing energy enable you to work with other people without the energy drain that many untrained intuitive healers experience. This is a useful introductory text, containing basic instructions, for any naturally sensitive person who has an interest in this form of healing.

What all of mankind have learned in the past about creation is the way that existence isn't -- a paradox! Awaken and realize that all of mankind will create their "body for Ascension," whether they accomplish this now or later, and that this is not the exclusive domain of Christ or Buddha or many others who have ascended -- this is your birthright. You are not relegated to worshipping those who have already done this very basic initiation called Ascension. Christ and Buddha would be the first to acknowledge that they are just beginners on their eternal journey. When mankind lifts the veils of their unworthiness and recognize that they are the Sons of God, that there is divine equality and no one is greater than another, then you will have begun our journey in the way that it was intended. In your near future your Planetary Hierarchy will release the world from theology, ecclesiasticism and the wrathful Jehovah and return humanity to its rightful journey into spiritualizing matter, not worshipping it! The Mahatma is for those who are motivated to search for the answers that can respond to their mental and spiritual bodies. In the past, mankind's choices of beliefs and religions have supported only the emotional body and the darker, material side of life. And truly, if one is going to remain on Earth, very drastic shifts of consciousness will be required to have mankind remain in Earth's new fourth-dimensional reality. No matter how contrary to your current beliefs, this book contains methods for creating your spiritual Lightbody for

Ascension, and it also explains your eternal journey in a way that was never before available to mankind.

Sufi Meditation presents the highest interpretation of what meditation means in universal mystical Islam. Using examples from the Koran, Orthodox Christianity and modern science, Hixon masterfully explains that Sufi meditation is in fact the consciousness of Divine Reality at all times, and that ultimately there is no separation between meditation and living one's daily life.

A comparative study of yoga. Including Surat Shabd Yoga - the crown of life.

"What happened to me that early morning during the Christmas of 1937 changed the course of my life and outlook. I sat in a small room in a house on the outskirts of Jammu. I was meditating. Practice had accustomed me to sit in the same posture for hours without discomfort, and as I sat breathing slowly and rhythmically, my attention was drawn towards the crown of my head, contemplating an imaginary lotus in full bloom, radiating light. I sat unmoving and erect. My whole being was so engrossed in the contemplation of the lotus that for several minutes I lost touch with my body and surroundings. The only object of which I was aware was a lotus of brilliant colour, emitting rays of light. During a spell of intense concentration I suddenly felt a strange sensation below the base of the spine, at the place touching the seat, while I sat cross-legged on a folded blanket spread on the floor. The sensation was so extraordinary and pleasing that my attention was forcibly drawn towards it. My heart beat wildly, and I found it difficult to bring my attention to the required degree of fixity. The sensation extended upwards, growing in intensity. Then, suddenly, with a roar like that of a waterfall, I felt a stream of liquid light entering my brain through the spinal cord. What had happened to me? Was I hallucinating? Or had I by some strange fate succeeded in experiencing the Transcendental? I had read glowing accounts, written by learned men, of great benefits resulting from concentration and of the miraculous powers acquired by yogis through meditation. Was there, after all, really some truth in the repeated claims of the sages and ascetics of India, made for thousands of years that it was possible to apprehend reality in this life if one practised meditation in a certain way? Little did I realize that from that day onwards I was never to be my old normal self again. I had unwittingly and without adequate knowledge, roused to activity the most powerful power in man. I had stepped unknowingly upon the key to the most guarded secret of the ancients, and thenceforth for a long time, I had to live suspended by a thread, swinging between life and death, between sanity and insanity, between lights and darkness, between heaven and earth." An extraordinary autobiographical account of what happens in the mind and body when Kundalini gets spontaneously aroused... one of the clearest journals documenting spiritual transformation and mental evolution onto a higher plane of consciousness.

Dialogues on the process of awakening shakti towards inner consciousness while performing Yoga.

The first authoritative biography of Babaji, the immortal master made famous by Yogananda's Autobiography of a Yogi, an all-time best-seller. Babaji lives today near Badrinath, in the upper Himalayan mountains. His body has not aged since the age of sixteen, when centuries ago he attained the supreme state of enlightenment and divine transformation. This followed his initiation into scientific art of Kriya Yoga by two deathless masters, the siddhas Agastyar and Boganathar, who belonged to the "18 Siddha Tradition", famous among the Tamil speaking people of southern India. This rare account, by a long time disciple, reveals their little known stories, ancient culture and present mission, as well as how their Kriya Yoga can be used to bring about the integration of the material and spiritual dimensions of life. Clear explanations of the psychophysiological effects of Kriya Yoga and guidelines for its practice are given. It includes verses from the Siddhas' writings with commentary. A book which will inspire you.
