Best in Show is a collection of photographs of well-groomed and award-winning dogs by New York City-based photographer Dolly Faibyshev. The images from the Westminster Kennel Club Dog Show and beyond focus on the unique—and often humorous—relationship between each dog and their handler. Dolly Faibyshev focuses on kitsch, irony, and the larger than life human and canine characters that make up Best in Show. The result is a colorful, vibrant, campy, and satirical take on this specific slice of Americana. • The colorful, closely cropped juxtapositions of each coiffed canine contestant and their dedicated human are both humorous and charming. • Sure to delight fans of all breeds of dogs • A universal and ideal book for all canine lovers with a sense of humor Best in Show captures a specific subculture of dog devotees primarily from the infamous Westminster Kennel Club Dog Show at Madison Square Garden in New York. • A perfect book for anyone who is completely and totally obsessed with dogs and the Westminster Kennel Club Dog Show • Photographers and contemporary art lovers will also love this celebration of Dolly Faibyshev's work • Great for fans of The Dogist: Photographic Encounters with 1,000 Dogs by Elias Weiss Friedman, Dogs by Lewis Blackwell and Tim Flach, and Underwater Dogs by Seth Casteel

The goal of this book is to gain a clear picture of the current status and future challenges with regard to the digitalization of the supply chain – from the perspective of the suppliers, the manufacturers, and the customers. They were the target groups of the book. Digitization has touched upon all aspects of businesses, including supply chains. Technologies such as RFID, GPS, and sensors have enabled organizations to transform their existing hybrid (combination of paper-based and IT-supported processes) supply chain structures into more flexible, open, agile, and collaborative digital models. Unlike hybrid supply chain models, which have resulted in rigid organizational structures, unobtainable data, and disjointed relationships with partners, digital supply chains enable business process automation, organizational flexibility, and digital management of corporate assets. In order to reap maximum benefits from digital supply chain models, it is important that companies internalize it as an integral part of the overall business model and organizational structure. Localized disconnected projects and silo-based operations pose a serious threat to competitiveness in an increasingly digital world. The technologies discussed in this text – artificial intelligence, 3D printing, Internet of things, etc. – are beginning to come together to help digitize, automate, integrate, and improve the global supply chains. It's certainly an exciting and challenging time for both new supply chain professionals and long-time supply chain professionals.

An engaging, highly moving young adult biography of Lucy Maud Montgomery, the beloved author of Anne of Green Gables, the Emily series, and many more treasured stories. This year, 2002, marks the 60th anniversary of Lucy Maud Montgomery's death. Maud Montgomery was not yet two years old when she saw her mother for the last time. The journey from that day to the day Maud signed "Lucy Maud Montgomery" at the end of her first published story was long and often painful. In this compelling portrait of one of Canada's best-loved writers for young people, another beloved, award-winning young-adult author, Janet Lunn, vividly brings to life the spirit that was Lucy Maud Montgomery. Lunn shows us Montgomery's strict and lonely upbringing in rural Prince Edward Island, her eventual marriage to a man she did not love but who was deemed an ideal match, and her hard-won successes after many years of self-doubt and rejection. Throughout her life, Maud never stopped writing her journals and stories. L.M. Montgomery is undoubtedly Canada's most famous author. Today, sixty years after her death her books have been translated into nearly every language, and dozens of plays, musical plays, films and made-for-television series of her works have been produced. In 1975, a Canadian Anne of Green Gables postage stamp was issued, and in Japan, where her stories are hugely popular, there are two Anne theme parks. At the end of 1999, when lists of the last century's favourite writers were being compiled, the name Lucy Maud Montgomery led all others.
