Death in the Age of Steam

The Inter Ocean Curiosity Shop

The recent revival of interest in international criminal law has been stimulated by events such as the wars suffered by Sierra Leone and Cambodia and the establishment of the world's first permanent international criminal court. These volumes consider war crimes law from a theoretical and historical perspective, presenting the finest English-language scholarship on the subject.

God's Jury

The Spanish Inquisition

Crime and Culture is a pathbreaking work in the critical study of crime and criminology. In this book Livy Visano begins with an overview of the standard perspectives on crime and delinquency. In the clear style that Dr. Visano's readers and students appreciate, he shows how we have come to understand crime in the conventional terms of rules and rule-breaking. But who makes the rules? Where do our ideas about crime come from? During his more than two decades of teaching and research in the fields of crime and delinquency Livy Visano has come

Read Book *The Spanish Inquisition Crime War Conflict*

to understand how power influences culture, and culture produces ideologies about crime. Dr. Visano asks the reader to step back from the conventional view in order to see the underlying structures of political economy that have created them. Readers of this outstanding book are challenged on almost every page to rethink their views about crime. They will finish the work with ideas much modified from those with which they started.

House Documents

Toronto in 1856 is industrializing with little time for scruple or sentiment. When Reform politician William Sheridan dies suddenly and his daughter, Theresa, vanishes only one man persists in asking questions. A former suitor of Theresa's who has never managed to forget her. Thrust into the role of amateur detective, he must now struggle with the demands of his job and the shortcomings of the fledgling city police.

The Spanish Inquisition and the Inquisitorial Mind

The Inquisition! Just the word itself evokes, to the modern reader, endless images of torment, violence, corruption, and intolerance committed in the name of Catholic orthodoxy and societal conformity. But what do most people actually know about the Inquisition,

Read Book The Spanish Inquisition Crime War Conflict

its ministers, its procedures? This systematic, comprehensive look at one of the most important Inquisition tribunals in the New World reveals a surprisingly diverse panorama of actors, events, and ideas that came into contact and conflict in the central arena of religious faith. Edited and annotated by John F. Chuchiak IV, this collection of previously untranslated and unpublished documents from the Holy Office of the Inquisition in New Spain provides a clear understanding of how the Inquisition originated, evolved, and functioned in the colonial Spanish territories of Mexico and northern Central America. The three sections of documents lay out the laws and regulations of the Inquisition, follow examples of its day-to-day operations and procedures, and detail select trial proceedings. Chuchiak's opening chapter and brief section introductions provide the social, historical, political, and religious background necessary to comprehend the complex and generally misunderstood institutions of the Inquisition and the effect it has had on societal development in modern-day Mexico, Guatemala, El Salvador, Nicaragua, and Honduras. Featuring fifty-eight newly translated documents, meticulous annotations, and trenchant contextual analysis, this documentary history is an indispensable resource for anyone seeking to understand the Inquisition in general and its nearly three-hundred-year reign in the New World in particular.

Read Book The Spanish Inquisition Crime War Conflict

From the Spanish Inquisition to Nazi Germany to the United States today, ordinary people have often chosen to turn in their neighbors to the authorities. What motivates citizens to inform on the people next door? In *Judge Thy Neighbor*, Patrick Bergemann provides a theoretical framework for understanding the motives for denunciations in terms of institutional structures and incentives. In case studies of societies in which denunciations were widespread, Bergemann merges historical and quantitative analysis to explore individual reasons for participation. He sheds light on Jewish converts' shifting motives during the Spanish Inquisition; when and why seventeenth-century Romanov subjects fulfilled their obligation to report insults to the tsar's honor; and the widespread petty and false complaints filed by German citizens under the Third Reich, as well as present-day plea bargains, whistleblowing, and crime reporting. Bergemann finds that when authorities use coercion or positive incentives to elicit information, individuals denounce out of self-preservation or to gain rewards. However, in the absence of these incentives, denunciations are often motivated by personal resentments and grudges. In both cases, denunciations facilitate social control not because of citizen loyalty or moral outrage but through the local interests of ordinary participants. Offering an empirically and theoretically rich account of the dynamics of denunciation as well as vivid descriptions of the denounced, *Judge Thy Neighbor* is a timely and compelling analysis of the reasons people turn in their acquaintances, with relevance beyond conventionally repressive regimes.

Torquemada and the Spanish Inquisition. A History. With a Photogravure Frontispiece and Fifteen Other Ills in Half-tone, Including a Map

What do we know about war crimes and justice? What are the discursive practices through which the dominant images of war crimes, atrocity and justice are understood? In this wide ranging text, Michael J. Shapiro contrasts the justice-related imagery of the war crimes trial (for example the solitary, headphone-wearing defendant at the Hague listening without to a catalogue of charges) with literary justice: representations in literature, film, and biographical testimony, raising questions about atrocities and justice that juridical proceedings exclude. By engaging with the ambiguities exposed

Read Book The Spanish Inquisition Crime War Conflict

by the artistic and experiential genres, reading them alongside policy and archival documentation and critical theoretical discourses, Shapiro's *War Crimes, Atrocity, and Justice* challenges traditional notions of responsibility in juridical settings. His comparative readings instead encourage a focus on the conditions of possibility for war crimes as they arise from the actions of states, non-state agencies and individuals involved in arms trading, peace keeping, sex trafficking, and law enforcement and adjudication. Theory springs to life as Shapiro draws on examples from legal discourse, literature, media, film, and television, to build an nuanced picture of politics and the problem of justice. It will be of great interest to students of film and media, literature, cultural studies, contemporary philosophy and political science

incorporates the latest research in multiple languages to offer a new-and thought-provoking-view of this fascinating period. Kamen sets the notorious Christian tribunal into the broader context of Islamic and Jewish culture in the Mediterranean, reassesses its consequences for Jewish culture, measures its impact on Spain's intellectual life, and firmly rebuts a variety of myths and exaggerations that have distorted understandings of the Inquisition. He concludes with disturbing reflections on the impact of state security organizations in our own time"--

War Crimes, Genocide, and the Law: A Guide to the Issues

The Weekly Law Bulletin and Ohio Law Journal

Thirty-five years ago, Kamen wrote a study of the Inquisition that received high praise. This present work, based on over 30 years of new research, is not simply a complete revision of the earlier book. Innovative in its presentation, point of view, information, and themes, it will revolutionize further study in the field.

Chronicles from the Diary of a War Prisoner in Andersonville and Other Military Prisons of the South in 1864

This updated and revised second edition of Donald A.

Read Book The Spanish Inquisition Crime War Conflict

Wells's popular War Crimes and Laws of War, originally published in 1984, traces the rules of war since ancient times. The major sources of the rules or "laws" of war are explored: the congresses of the Hague, Geneva, and the United Nations. But an abyss exists between what military manuals allow and what the congresses prohibit; this book attempts to resolve this dilemma. An important text for military college courses and international relations, as well as social philosophy courses. Co-published with the North American Society for Social Philosophy.:

Judge Thy Neighbor

This book offers a fresh and strictly biblical interpretation of passages which for centuries remained a mystery to the student of Bible prophecy, including "Mystery, Babylon the great, the mother of harlots and of the abominations of the earth." I will explore the myths and deception of Roman Catholicism and their direct connection with the idolatrous worship system of the Mother and Child of ancient Babylon. The claim that Roman Catholicism is the only true Church of Christ on Earth and the claim that man can't find salvation apart from her is the greatest deception the world has ever known. Centuries of moral crisis and sexual exploitation of children speak volumes about the true nature of the leaders of the Catholic Church. The abhorrence of marriage and the negative view of women recorded in the Canon Laws clearly reflect the Gnostic belief on sexual intercourse and the imposition of celibacy. Many people throughout the world equate "Christianity" with everything that is vile, contemptible and depraved. For centuries the Catholic Church suppressed basic human rights. The Church persecuted and brutally murdered those who

Read Book The Spanish Inquisition Crime War Conflict

held beliefs that conflicted with Church dogma. During the horror of the Inquisition tens of thousands of people were tortured, beaten, burned alive, or dismembered, all in the name of a fraudulent faith. Roman Catholicism is the false representation of truth and is the cause great many people have hated and repudiated true Christianity.

History of the Spanish Inquisition

Learn the history of the Spanish Inquisition with iMinds insightful knowledge series. The Spanish Inquisition was a governing authority started by the crown in the late-fifteenth century. It included a network of spies who worked across the state to ensure Spaniards conformed to the accepted behaviour of traditional Catholic subjects. It was relentless in ensuring Catholic orthodoxy within Spain.

But why was Spain so self-conscious in ensuring a singular religious identity? Let's go back to the year 711. Muslim armies from North Africa successfully conquer much of the Iberian Peninsula, leaving only pockets of resistance in the North. There is Islamic rule in at least part of Spain for the most part of the next eight centuries. iMinds brings targeted knowledge to your eReading device with short information segments to whet your mental appetite and broaden your mind.
