Letters to a Young Pastor

The Driver And His Wife

Despite a growing body of research and targeted remediation, teenage and novice drivers continue to be six to nine times more likely to die in a crash than they are when they are just a few years older. The World Health Organization reports that road traffic injuries are the leading cause of death globally among 15 to 19 year olds. In light of these crash statistics, understanding the teen driver problem remains of paramount public health importance around the world. The Handbook of Teen and Novice Drivers: Research, Practice, Policy, and Directions provides critical knowledge for a broad range of potential readers, including students, teachers, researchers in academics, industry and the federal government, public policy makers at all levels, insurance companies and automobile manufacturers, driving instructors, and parents and their teens.

Teenagers are by far the most dangerous age group on the road: a 16-year-old is 12 times as likely as older drivers to die in a crash as a single occupant; put two young teens in a vehicle, and the odds of death and injury nearly double. Safe Young Drivers helps to address this enormous problem. It is an indispensable guide for teaching teens to drive. Intended for parents and teens to use together, it addresses parental issues such as how to choose a car for your teen, and provides teens with simple instruction and important tips to remember. With simple graphics, a complete index, and a section called Some ABCs for the Road, Safe Young Drivers is a valuable tool for all new drivers and their teachers.

Portrait of an Addict as a Young Man

A frank discussion on the biblical standards for purity, written for young adults. "Thank you, Pastor Garcia, for writing a book that addresses a crisis in progress for both youth and adults. It is saddening to read that, "Thirty-three percent of all married born-again believers experience divorce, nearly the same as the 34 percent of non born-again adults." This book is both thorough and thought-provoking. It offers solutions and guidelines that are very helpful. Your research and insights as to how faulty patterns in courtship and marriage are developed, and how children and parents can pursue a godly strategy together is a must read for all youth, parents, and those in the ministry." ~Bill Bright, Found and Chairman, Campus Crusade for Christ "Thanks to Pastor Garcia for doing a masterful job of addressing this vital subject and for offering step-by-step help for all to follow the teachings of our Lord concerning dating, courtship, and marriage. ~Evan Paul, Editor, Global Pastors Network

Closing the Gap

Calvin Miller has long been one of the most creative voices in the church. As a best-selling author and poet he has enabled believers to flourish. As a pastor and educator he has equipped countless thousands to know and serve God more fully. And he's got the battle scars to prove it. Having survived these tumultuous decades, Dr. Miller now shares his well-earned wisdom with the next generation of pastors—including you, or someone you know. Miller acknowledges much has changed over his years of ministry, as we've moved from switchboards to smartphones and from big-haired evangelists to cigar-smoking emergents. But two truths remain the same: God is love and people are broken. In this honest, engaging, and humorous collection of letters, he encourages you to fight the good fight, stay the course, and keep your eye on the Author and Finisher of the faith ... to serve well every Sunday so you'll never feel the urge to resign on Monday.

Handbook of Teen and Novice Drivers

Marty is a Professional Bus / Shuttle Driver and has been driving for many years. His occupation is one that puts him up front and personal with a special sector of our society; Bus Passengers. Over the years he has accumulated an assortment of short stories while driving a city transit bus; he wishes to share these stories with you. Many of these stories are serious while others are mind boggling, hilarious or just make you say, "Oh my gosh; what were they thinking." He has written this book using the following parameters: there are no swear words in this book (He doesn't need to use profanity to get his point across); he does not identify any ethnic backgrounds of the people in his stories (Marty wants people to view people without prejudice and bias) and lastly he was honest and told the truth to the best of his ability (By doing this he has found out that people don't like the truth and will go to extremes to avoid it.) Marty's' writings are unique because he writes like he talks. He does this so that he can relate to anybody who has ever told a story. The stories that he tells are inspirational, motivational and humorous. He has become a Master Story Teller and shares his stories with all who will listen. So get on board; Put your fare in the box; Grab a seat and be prepared for the ride of your life! "HEY, I'M MARTY. I DRIVE THE BUS!" BOOK I is currently being sold worldwide.

Spanning his four-decade career, these more than thirty refreshingly frank, sparely written stories are among John O'Hara's finest work, exploring the materialist aspirations and sexual exploits of flawed, prodigally human characters and showcasing the snappy

Bill Clegg had a thriving business as a literary agent, a supportive partner, trusting colleagues, and loving friends when he walked away from his world and embarked on a two-month crack binge. He had been released from rehab nine months earlier, and his relapse would cost him his home, his money, his career, and very nearly his life. What is it that leads an exceptional young mind want to disappear? Clegg makes stunningly clear the attraction of the drug that had him in its thrall, capturing in scene after scene the drama, tension, and paranoid nightmare of a secret life--and the exhilarating bliss that came again and again until it was eclipsed almost entirely by doom. He also explores the shape of addiction, how its pattern--not its cause--can be traced to the past. *Portrait of an Addict as a Young Man* is an utterly compelling narrative--lyrical, irresistible, harsh, honest, and beautifully written--from which you simply cannot look away.

Don't Awaken Love Before the Time

"Can I borrow the car' How to partner with your teen for safe driving" is an e-book about how parents can influence teenagers to learn safe driving habits written by Susan Tordella, who taught all four teens how to drive automatic and stick shift

vehicles. Susan is also the author of "Raising Able: How chores empower families" where she shares wisdom gleaned from a decade of leading parenting workshops and 25 years of raising four successful children by using Adlerian psychology. The book has two objectives: 1. To share suggestions on how parents can relate positively to their teens so that, 2. Teens will listen to them and follow the safe driving habits and keep them out of accidents. "Can I borrow the car?" gives specific safety habits your teen can use to avoid accidents that are useful and easy to learn, useful for adults and teenage drivers. Susan uses stories to show how to partner with your teen to insure they drive safely. Her true stories include three accidents caused by her teens and weren't fatal, give Susan credibility. Accidents happen. This short book, full of suggestions on how to relate to your teen positively and avoid alienating him or her, may prevent accidents, show your teenagers that you expect them to drive responsibly, and possibly prevent a fatal accident. Susan recommends the use of family meetings to set up a mutually respectful relationship for life with your teenager, which may influence him or her to follow the safe driving habits you will teach and model. Modeling the safe driving habits is more powerful than talking about them. Susan encourages parents to talk about teen accidents published in the media to promote awareness and prevent accidents. Readers will learn how to use encouragement - how to notice what you like to get more of it, instead of being critical, sarcastic or complaining. This short, to-the-point guide on how to encourage teens to learn safe driving habits teaches parents how to take a positive attitude and be a good role model to promote safe driving. Much is at stake with new drivers. The rate of accidents among teenage drivers newly licensed is higher than the rate of any other age group. At the end of the book is a one page Teen Safe Driving Contract, another tool to raise awareness and promote communication with teens that driving has life and death consequences.

Framing Youth

The universal experience for most high school students is learning to drive and getting their driver's license. Add breathlessly plotted romance and an accident and you have a poignant and realistic novel. Remy Martin prays to the God of Driver's Education that she will get to drive today. She doesn't know where she's going, but she knows one thing . . . she is going to get there fast. Morgan Campbell had been standing on the threshold of 16 and getting his driver's license ever since he could remember. But deep into the first crush of his life, thinking of nothing but girls, Morgan forgot what driving was all about. This poignant novel about responsibility and consequences is as convincing as it is irresistible.

Rolling Thunder Stock Car Racing: Young Guns

Although the title of this book indicates One parents story, struggle its actually about the battle between all parents and teens; or simply adults and teens in general. I say battle, but it has actually risen to the potential for what I call generational warfare. Basically, teenagers have little respect for adults; especially parents. The protocol is simple; and yes most adults do recall progressing strategically in the same way during their own youth. Even before were born; we make demands. Then after weve grown a few years; we make many more demands. By the age of ten to thirteen, we more than expect those demands to unquestionably be met. Finally by the last 3 to 5 years of youth while living at home with our parents; weve assessed who our biggest enemy is and how we would like to take down who we now see as both an enemy, and a dictator. Simply put: after youve bitten the hand that feeds you for so long; that hand begins to appear useless. And once that represents uselessness; the person behind that outreaching hand, also serves no purpose to you. So the stage is set. Teenagers wont look back with any sense of appreciation; and parents, who also continued to grow; will look back and wonder: was it all worth it. Many are optimistic, while others are in denial. But most can only feel one thingWhat was I thinking.

Parents: Does your teen withdraw to his or her room at every opportunity? Does she talk with you about her friends? Does he participate in discussions at meals? Does your teen want you to see projects from school? When is the last time you actually went into your teen's room and looked at what's hanging on the walls and sitting on the shelves? Teens: Do your parents hide behind the newspaper? Do they always have to work when you've got a game, a recital, or an open house at school? Is there anything you do together anymore? When was the last time they took a walk, a bike ride, or even a trip to get ice cream with you? When did that sudden gap divide your home into territories staked and claimed, with music blasting through the halls and fists banging on doors to turn down the stereo/TV/video game? Teens, when did you start seeing your parents as your enemies instead of your heroes? And parents, when did you start seeing your teens as crazy little demons instead of your loving children? Finally, there is a solution for both sides, and one that will not only bridge that gap but show parents and teens alike how to prevent it. Jay McGraw is the ideal person to write a book for both parents and teens. A bestselling author by the age of twenty-one and son of number one New York Times bestseller Phillip C. McGraw, Ph.D., known to millions worldwide as Dr. Phil, Jay has seen the parent-teen battle from all angles. In this groundbreaking work, he introduces a new plan for both teens and their parents to work through the issues that divide them and, in the process, rediscover the love that initially defined their relationship. Jay works from both sides -- sharing the perspectives of parent and teen as the former struggles for control, the latter

for independence. He explains to parents how their teenagers wish to be treated, cared for, and even disciplined, and he shows teens how gaining power can come only from earning respect. Model for Provisional (graduated) Licensing of Young Novice Drivers

Continuing in the tradition of the first edition, Whitbourne's identity process model serves to integrate the physiological with a psychological perspective. The effects of physical changes on the individual are examined in terms of identity, as well as the impact of identity on the interpretation of these changes. The preventive and compensatory steps that individuals can take to offset the aging process are explored as well. As with the first edition, a major strength of this text is the author's illumination of complex biological concepts in a clear and accessible style. The Second Edition includes new material focusing on demographic statistics, chronic diseases, the biopsychosocial perspective, and successful aging. This edition also features new charts, tables, and figures to highlight the text. This is an excellent text for advanced undergraduate and graduate students in the fields of psychology, gerontology, and social work.

The Driving Book

The pedal meets the metal in Rolling Thunder Stock Car Racing--the thrilling series from Kent Wright and Don Keith that traces the history of stock car racing from the dusty dirt tracks of East Tennessee to the multi-million-dollar, high-tech venues of today. The tracks are faster. The cars, too. But the hunger for speed--and the hunt for the checkered flag--hasn't changed. Jodell Bob Lee has long since retired from driving, but the love of the sport is still like a fire in his belly. When he spots a talented young driver he can't help remembering his own glory days. It's as if he is thirty years younger and racing the dirt tracks of Tennessee all over again. Jodell has an idea: his old friend and former "wrench," Billy Winton, has put together a racing team, but so far wins have been hard to come by. Billy is looking for a driver who can do more than just chase the checkered flag. He needs a young gun who can tame the superspeedways and take the flag. A new partnership is born. But the Kid has a few obstacles in the way, namely Dale Earnhart, Jr., Adam Petty, Casey Atwood, and the other young guns who are clearly stock car racing's next wave of stars. It's a new generation of drivers, but the prize in Young Guns is the same: the checkered flag! Warren Buffett, Carl Icahn, and George Soros all started with nothing---and made billion-dollar fortunes solely by investing. But their investment strategies are so widely divergent, what could they possibly have in common? As Mark Tier demonstrates in this insightful book, the secrets that made Buffet, Icahn, and Soros the world's three richest investors are the same mental habits and strategies they all practice religiously. However, these are mental habits and strategies that fly in the face of Wall Street's conventional mindset. For example: -Buffett, Icahn, and Soros do not diversify. When they buy, they buy as much as they can. -They're not focused on the profits they expect to make. Going in, they're not investing for the money at all. -They don't believe that big profits involve big risks. In fact, they're far more focused on not losing money than making it. -Wall Street research reports? They never read them. They're not interested in what other people think. Indeed, Buffett says he only reads analyst reports when he needs a laugh. In *The Winning Investment Habits of Warren Buffett & George Soros* you can discover how the mental habits that guided your last investment decision stack up against those of Buffett, Icahn, and Soros. Then learn exactly how you can apply the wealth-building secrets of the world's richest investors to transform your own investment results.
